Final attempt. I added a bullet on OR to the top answer and have deleted any references to how the settlement agreement might play out - whether we will or not meet the deadline, etc.
Since we've edited each others' edits this is going back a big mess. Kristie, I don't know if it's possible to do compare doc with the original from R10 and just submit the net changes to the document (without showing all the tortured back and forth...)

Thanks all -
